Three architectures. Choose around the application.

Aperium Glide

TRACK BUSWAY / 100–1250 A

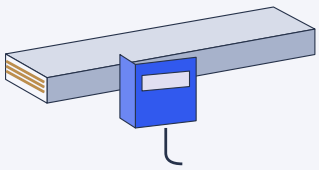

Continuous access slot for tap-off placement along the run. Consider for changing rack layouts and colocation fit-outs.

Aperium Link

FIXED TAP-OFF BUSWAY / 100–800 A

Fixed tap-off positions with cable-drop or connector-outlet variants. Consider for defined layouts and space-constrained IT modules.

Aperium Core

SANDWICH BUSWAY / 630–6300 A

Insulated, stacked copper conductors for higher-current main and high-density IT distribution.

Current ranges describe the product families. Select voltage, fault rating, protection, dimensions and certification scope for the complete assembly.
